

Left Blue and silver colour options with timber flooring match the home's exterior and help create the 'country retreat' style bathroom that Jeff and Anna desired.

Pritchard Display Centre created this unforgettable kitchen. For dramatic differences, the Huston's opted for Formtech black, panelled doors, bright blue Melteca contrasting panels, open shelf units, top trim, and toe kicks. The stainless steel look benchtop and bright red glass splashback are chic additions. Pritchards also supplied and manufactured the stylish, subtle 'Slate Blue' Vantage aluminium joinery and colour matching Miro hardware throughout the home. Double glazing plus three and five panel bi-fold doors are sensible features. Pritchards has been servicing the Rangitikei, Manawatu and Palmerston North areas for almost 50 years. They specialise in kitchen design and interior doors plus innovative joinery options.

For a country retreat-style bathroom, Sandra from Mico Bathrooms supplied suitable fittings and accessories. The room's main attraction has to be the Athena Seville shower with new shimmer finish frame giving an unexpectedly stylish silver metallic look. The Athena Serifos vanity also adds sparkle with metallic sides and complements the Caroma

Sovereign toilet suite. Metrix Amarcord chrome tapware and timber floors add a comfortable colonial atmosphere to the room. Sandra has been a consultant and bathroom designer with the company for seven years. Mico Plumbing and Pipeline's stores and Mico Bathrooms' showrooms can be found in most centres throughout New Zealand.

No rural home would be complete without a large, central fireplace. Heatrite supplied and installed the Huston's Metro Mega-Rad freestanding woodfire and heat transfer system. The beauty of this system is that the excess heat created from the woodfire is ducted from the living area into the three bedrooms, ensuring the entire home is warm and cosy. Metro is New Zealand's leading woodfire brand. Heatrite is a family business that has been operating in the Manawatu for 40 years. The company specialises in woodfires, gas heating, hot water, bathrooms, and plumbing. Sales, installation and service are all catered to by experienced staff. ■
